

by Michael Fuchs, VP Facilities

This report covers maintenance and renovation activities at the community hall from July 2011 to June 2012.

Maintenance

Regular maintenance was conducted at the hall as needed. Over this past year has been no additional repair or maintenance needed to be performed on the facilities.

We hired a new caretaker this year due to the increase in hall rentals. The feed back has been positive with the new service. We also needed to add a pest control program to help keep the insects and critters out of the hall. Being in a park setting and again the increase in hall rentals made it necessary to use this service.

No renovations scheduled for this year.
