

The facilities report will be presented by Michael Fuchs, VP Facilities

This report covers the maintenance and renovation activities at the community hall from July 2012 to June 2013.

Regular maintenance was conducted at the hall as needed. Over this past year there has been no additional repairs or maintenance need at the hall.

This coming year we will need to replace the lights in the hall with something more functional and updated. replace the parging on the outside of the building as it has started to separate from the cinder block wall.

No renovations scheduled this year.

I would like to move to accept the facilities report

Michael Fuchs
